KNN Integrated Framework for Caring, Character and Human Flourishing

Rev. 5/15/22

Corresponding references available in appendix

Practical Wisdom

Using acquired experience to discern the right way to do the right thing in a particular circumstance, with a particular person, at a particular time.²

Character

A constellation of characteristics—moral, civic, intellectual and performance—formed over time and manifest in dispositions and practices.³

Human Flourishing

Human flourishing refers to a wholeness—of being and doing, of realizing one's potential and helping others do the same. It can be measured across the domains of happiness; life satisfaction; physical and mental health; meaning and relationships, and is most commonly achieved through pathways of family, work, education and spiritual community.¹

Individuals

Medical and Other Health Professions Education

Health Systems and Other Practice Environments

Society

Caring

A blend of practices, dispositions and motivations—attentiveness, responsibility, competency, responsiveness and engagement/citizenship—all aimed at ensuring that individuals and populations grow, develop and flourish as best they can.⁴

Flourishing in Healthcare Spaces

SESSION FOCUS AREAS

- Explore how factors such as hierarchies and interpersonal dynamics affect the flourishing of practitioners, staff, patients and learners in care settings.
- Discuss how individual agency and the ability to act on one's values influence the levels of flourishing within care settings.
- Examine how collaborative practice approaches can help those within care settings flourish.

Today's Speakers

**Danny O. Jacobs,
MD, MPH, FACS**

President, Oregon Health & Science University, and Professor of Surgery, OHSU School of Medicine

**Linda D. Scott, PhD, RN,
NEA-BC, FNAP, FAAN**

Dean and Professor, School of Nursing, University of Wisconsin-Madison

**Moderator:
Kimara Ellefson, MBA**

National Director for Partnerships, Kern National Network for Caring & Character in Medicine
