Geisel School of Medicine
at Dartmouth (Pediatrics)

ONLINE | TUESDAY, OCTOBER 25 | 4-5 PM CT

SESSION LEARNING OBJECTIVES

- Discuss strategies to infuse human flourishing into learning experiences.
- Explore how faculty can integrate human flourishing practices into curriculum and their philosophies of education.
- Explain how learners can be agents and beneficiaries of human flourishing at their schools.

About the Discussion Series

Imagine it's 2030 and we live in a healthier world where healthcare learners, practitioners and patients are flourishing. What does that future look like, and what will it take to get there? Four sessions will examine external influences, micro to macro, that shape and drive the vitality of healthcare students, professionals and broader society.

About the KNN

The KNN is dedicated to promoting human flourishing through the profession of medicine. Our mission is to foster caring and character in the profession of medicine through efforts with our seven founding member schools as well as health professions education, healthcare systems, network partners and society.
