**Zack Timmons, MD**

Emergency Medicine Resident  
McGovern Emergency Medicine at UT Houston  
Co-Founder, Good Apple LLC

**ONLINE | TUESDAY, JANUARY 25 | 4-5 PM CT**

### SESSION LEARNING OBJECTIVES

- Discuss how flourishing can provide a framework for improving community health in ways that go beyond direct patient care.
- Identify strategies within healthcare education and practice that elevate human flourishing among diverse local community members.
- Explore how human-centered design approaches can be used to create systematic change that promotes community wellness and flourishing.

### About the Discussion Series

Imagine it's 2030 and we live in a healthier world where healthcare learners, practitioners and patients are flourishing. What does that future look like, and what will it take to get there? Four sessions will examine external influences, micro to macro, that shape and drive the vitality of healthcare students, professionals and broader society.

### About the KNN

The KNN is dedicated to promoting human flourishing through the profession of medicine. Our mission is to foster caring and character in the profession of medicine through efforts with our seven founding member schools as well as health professions education, healthcare systems, network partners and society.
